Ring Round the Moon

Written in the 1950's, but set in France before the first World War, Ring Round the Moon is about the love of Isabelle a young ballet dancer, for Hugo a sophisticated man about town. She is entranced by his charm but realises eventually that she will not find happiness with him. Her happiness rests eventually with Frederick, Hugo's more sympathetic twin brother. Encircling this trio is a wealth of action and colour provided by some very entertaining characters - an eccentric old lady and her faded companion; a melancholic millionaire and his spoilt daughter; a passionate lady and her cowardly lover; a lecherous lepidopterist; Isabelle's rather fulsome mother and the crumbling family butler.

Set all this to music and you have a delightful charade.

The Cast

Welcome to five new Eltham members - Graham Cliff, Philip Clifton, Hilary Radnar, Eirona Wiseman and Hilary Ward - we hope they enjoy their debut on the Eltham Stage, and that they will be seen there many times in the future.

If you saw our Music Hall you will remember the delight that Mrs Hilda Osborne, Miss Valda Thompson and Messrs. Paul Jenner and Richard Camm-Jones brought to us - here they are entertaining us once more.

Mrs Gene Murdoch and Mr Llew Hodges are two of our most stalwart members - not only very proficient on stage but always willing and able to help with a variety of back stage work. Many thanks to them all.
